**Subject:** Draft Priorities

Michelle, Bill and Marianne:

I am being asked by the Administrator to send a list of personal priorities to them by this Friday. Could you take a look at the below content and give me some feedback by the end of the day today? Thanks.

Dennis

**Non-Responsive**

- 6) **Oregon CZARA.** We will be formally disapproving Oregon's Coastal Zone Management Plan this January and that could mean a substantial loss of federal water quality funding to Oregon. I have been working with NOAA, the DEQ Director and the Oregon Governor's Office on what it will take for Oregon to get back on track with respect to forest practices to avoid a train wreck on this. We have had promising discussions with Oregon on this and I am working on an exchange of letters that would occur in February which would set milestones for Oregon to meet to get back on track.
